## WORCESTER, MASS. AREA

By Jim MacMillan, © 2017-18

**L**ove craft beer? Want to find out where it's made? Looking for new brews that you've heard or read about? Well here's a perfect opportunity to find out about all of these things and more!

This is the fifth of a series of articles providing information about what I refer to as 'Beer Destinations' and will give you a bit of knowledge about multiple brewery spots in the greater New England area. In this series, I will select a number of breweries, brewpubs, eateries and craft beer bars in which to travel. You can sample their offerings, move on to the next, and manage to hit them all if you're up for the challenge...

*I am dedicating this article to my late brother-in-law who lived in this area and always knew of great places to hang out and enjoy life; here's to you Brian... Cheers!!!*

There are some great breweries out there making awesome beer just for you! I live in New Hampshire, but in this issue, we will focus on Worcester, Massachusetts area and its plentiful beer production within this region. Look over the map and see where breweries of interest reside then plan out your trip to find your Beer Destination!

There are over 145 breweries in Massachusetts alone with that number increasing every year. The term 'brewery' refers to a nano or micro brew-on-premise establishment (usually with food), tap or tasting room, or even a macro brewery, such as the likes of Harpoon in Boston.
